

The Energy Bill represents a major opportunity to put the UK firmly on track to becoming a world leading low-carbon economy, boost employment and show genuine leadership in the fight against dangerous climate change.

Our organisations jointly call on Members of Parliament to seize this unique opportunity to commit the UK in the Energy Bill to have a near carbon free power sector by 2030 in line with the recommendations of the Committee on Climate Change.

We represent different parts of society but are united in the belief that a low-carbon power sector is essential to secure the future wellbeing of our economy, our environment and future generations.
